MESA

RIPENING GRAIN

The Republican correspondent rode to the country with Jesse F. Kelly yesterday and made the discovery that grain is ripening very rapidly in the vicinity of Mesa. A number of fields of barley are already cut and in the shock. In the larger fields headers are to be used, but the man with limited acreage is cutting and binding this season's crop. On the old Petersen place, now owned by Kelly and Bennett & Co., there is a fine stand of barley just about ready for the reaper. All down the line—Allen's, Lewis', Horne's, Hobson's—so far as the eye can see there are similar fields, showing that the acreage planted to grain this season is no small matter. On the Allen place there is considerable ground given to potato cultivation and the crop is most promising. It is only of late years that much attention has been given to potato growing in this part of the valley, but those who have tried it say that the crop is a profitable one. The cantaloupe fields are showing a fine growth, and it is now almost certain that the output from Mesa this season will exceed five hundred carloads. Fruit trees everywhere in the vicinity of the city are loaded with fruit in various stages of development. Early apricots are in the market and figs will soon be ripe, while the peach trees show remarkably large fruit for this early in the season. It is hardly necessary to say that alfalfa fields and the man with the cows and the milk cans are something we have always with us, and are the men who always smile the smile of assured prosperity.

We handle nothing but the best. All milk and cream pasteurized. Try us. Farmers' Co-Operative Creamery. tf

BURIED IN MESA

The body of George Rosenberger was brought to Mesa yesterday from Beaumont, California, and interred in Mesa cemetery. Death occurred on Wednesday and the body was accompanied here by Mrs. W. A. Hill, a sister. Mr. Rosenberger was 21 years of age and was well known to many of the people of Mesa, Tempe and Phoenix.

A BIG SUCCESS

All the reserved seats for the National Guards benefit at the Mesa opera house were sold yesterday long before the curtain went up for the first act. The play was that old time but ever popular war drama, "The Spy," and it was presented in a most creditable manner. Some of the actors conducted themselves equally as well as professionals and all of them deserve credit. The proceeds were very satisfactory and will be applied in improving the armory gymnasium.

SOCIAL DANCE

A social dance was given at Masonic hall Thursday night by a committee composed of Jay Sexton and Donald McQueen. Good music had been provided and the dance passed off most satisfactorily. It is the first of a series of dances to be given at the same hall by some of the younger married set of the town.

CONTINUED

The case of the Territory vs. W. M. Gilbert was to have been heard in justice court yesterday afternoon, but owing to the absence of Attorney Dougherty of the defense, was continued until Tuesday, May 16th. Assistant District Attorney Frank Lyman came up from Phoenix on the noon train, returning by next train.

FUNERAL OF BABY

Helen Arvilla, the six months' old daughter of Mr. and Mrs. Ernest Radford, died Thursday afternoon and was buried at 3 o'clock yesterday afternoon, the funeral taking place at the Baptist church. Rev. S. W. Gage preached the sermon. The little one was interred in the Mesa cemetery. The parents are almost heartbroken over the loss of their baby girl.

DR. CHANDLER HOME

Dr. A. J. Chandler returned yesterday from a visit to the coast. He is well satisfied with his trip from a business standpoint and it is expected that there will now be something doing in sales of lots in the new town—or rather the proposed town—of Chandler, six miles south of Mesa. Advertisements of the land sale are being placed in many of the most largely circulated daily and weekly publications in eastern, northern and western newspapers, and these are expected to bring many home-seekers to the valley.

There is to be a special meeting of the town council held on May 19th for a further discussion of the irrigated water proposition.

Mrs. V. O. Powell who underwent an operation for appendicitis on Thursday is progressing nicely and complete recovery is anticipated.

Mrs. Sarah Lamb is able to sit in a chair after her recent serious illness.

L. B. Norton is again up and around the house after his recent operation.

Carrie Bauer, daughter of Chas. Bauer on Base Line, who has been ill with tonsillitis for several days is again up and will be ready for school Monday.

M. L. Gibbons went to Phoenix yesterday on the noon train.

ADVICE TO MOTHERS—Mrs. Winslow's Soothing Syrup should always be used for children's Teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. 25c a bottle.

THE THIEF IN THE SKY.

What is the evidence that Jupiter steals comets?

The evidence is both direct and circumstantial, writes Professor D. J. McAdam in Harper's Weekly. There are thirty or more comets that have periods of from three and a third to seven and a half years. If the orbits of all these comets were drawn on a map, they would make such a maze of rings, seeming to hang around Jupiter, or to be just inside his orbit, that no words would be needed to elicit the demonstration. The comets seem to vibrate from Jupiter's path, around the sun and back again, to pay their homage to him in such a way that it cannot be accidental.

A second striking fact shown in such a map is the position of the nodes of the orbits of these comets. The orbits are tilted at all angles to Jupiter's orbit, from five degrees to thirty degrees. Yet no matter what their angles or how far they go beyond Jupiter, they all plunge through the plane of his orbit near the actual path of Jupiter. If the comet is at this interesting point when Jupiter is at the corresponding point in his path—as must happen at some time—they will be very near together—nearer than they would be in any other arrangement of their orbits. These facts make the proof almost conclusive. But, as if this were not enough, Jupiter has been caught red-handed.

A LONG STERN CHASE

"Could you do something for a poor old sailor?" asked the seedy-looking wanderer at the gate.

"Poor old sailor?" echoed the lady at the wash tub.

"Yes, I followed the wotter for sixteen years."

"Well," said the woman, after a critical look, "you certainly don't look as if you ever caught up with it."

Then she resumed her labors—Ideas.
